

# Adapters as Skills, Adapters as Conscience

LoRA agents on Cloudflare Workers and self-hosted vLLM

## SKILL adapter

SSH deploys, firewall ops,  
agent tools

## MEMORY adapter

knowledge baked in,  
not a claude.md

## GUARDRAIL adapter

expert switching,  
one swap per request

## Base Model

serverless edge (Workers AI)  
or self-hosted GPU (vLLM)  
same request, swapped adapter

## honest persona (SPT)

reviews outputs,  
cannot influence them

---

SKILL adapter → swap in → Base Model

MEMORY adapter → Base Model

GUARDRAIL adapter → Base Model

Base Model → review → honest persona (SPT)
